

PRISON FELLOWSHIP ALBANIA

Dream Academy

Albania 2024

for teenagers with a parent in prison

*We help teenagers widen their horizon,
discover their dreams and then help them realize their dreams*

Growing up in poverty and often isolated as a teenager is not easy.

You start believing that this is how it should be and that poverty and struggle to survive are your future as well. Crime or loverboys are a constant threat to our 'dreamers'.

That's why we offer a 4-year program, with a personal mentor, a varied online learning program, and real seminars with field trips, guest speakers, and personal learning and development moments. And relaxation and encouragement, of course. These children often come from the worst living conditions.

In summers, we offer an online Summer School, with a short seminar for those who have completed their tasks!

The young people understand that they are being offered a golden opportunity, and often work super motivated on their weekly assignments! These are then discussed bi-weekly with the volunteer mentor. Our coordinator ensures that all 45-50 'dreamers' remain active, that mentors are motivated but also appreciated, plans the seminars, and finds Albanian companies and individuals who make their contribution to this wonderful program!

Arjana (15 years old) is not physically strong, but has a positive character!

For years, her father terrorized the family. After he was sent to prison, her brother became aggressive, her mother depressed, and that's how we found the family.

Arjana kept believing that a turnaround would come!

After participating in our Dream Academy program, she learned to look ahead, gained more self-confidence, and is now working towards her dream - becoming a doctor!

Why would you help..

The young people in our program often come from miserable circumstances. A lot of domestic violence, poverty, raised by grandparents, isolated because of their parents...

Who are we?

- Passionate partner for work and target groups that are often forgotten
- Years of experience with financial accountability and audits
- Good cooperation with local churches and volunteers throughout the country
- Full cooperation from national and local prison authorities
- 20 years of experience with donors, visits, and working groups or expand upon?

Giving youth the chance to dream..

Poverty and social isolation take time to disappear from children's mindsets. That's why we offer a multi-year program.

A program in which teenagers engage in self-development, broaden their horizons, and begin to discover their future dreams.

We help them realize those dreams!

Donate too, for the future of these young people

Accountability!

Annual audit reports provide accountability for all PFA projects. Agreements on content reporting are made in consultation with the donor.
